

	<h2>Environmental Policy</h2>	Reference			
		Revision	03	Date	May 08
		Sheet	1	of	1

One-On Railway Engineering Ltd (One-On), Environmental policy lays down standards covering every aspect of the Company's activities in the transportation industry. One-On, shall: -

- Conform to and where cost effective exceed the requirements of all relevant legislation, regulations and industry best practice
- Promote reduction in the consumption of all materials and resources whilst encouraging re-use and recycling wherever possible
- Continually strive to prevent pollution, reduce the level of harmful emissions and minimise waste associated with our activities
- Ensure that environmental management is integral to the service we provide to our customer
- Promote environmental awareness and responsibilities with all our employees and contractors providing training where appropriate. Protecting the environment and contributing to the improvement of the Company's environmental performance through a process of continual improvement.
- Establish objectives and monitor performance in achieving them
- Engage in dialogue with relevant interested parties to achieve the objectives we share
- Publish both internally and externally the environmental achievements of the business

- Be a good neighbour through open relationships with both regulatory authorities and the local community
- Take active steps to ensure our activities will not harm protected heritage features and habitats
- Ensure that responsibilities which arise from the policy and integrated management system are suitably defined, communicated and understood at all levels
- Ensure a commitment to comply with environmental legislation and other requirements to which One-On subscribes

To support this policy, One-On, maintains an Integrated Management System, in accordance with the requirements of International Standard BS EN ISO 14001:2004 as a framework for continual improvement and Best Practice.

I as Managing Director of One-On Railway Engineering Ltd will ensure this policy is resourced, implemented and reviewed for effectiveness, through management review, on an annual basis or more frequently as organisational needs or legislative changes dictate.

Signed:

John Reidy
Managing Director,
One-On Railway Engineering Ltd
